An Update for NYS Healthcare Providers on COVID-19

May 7, 2020

Elizabeth Dufort, MD, FAAP
Medical Director, Division of Epidemiology
New York State Department of Health
Agenda

• Global, National, New York State Updates
• Testing Updates
• Contact Tracing
• Community Mitigation
• Therapeutics
• Telehealth
• Healthcare System Surge Response
• Healthcare Provider Wellness and Survey
• Resources
• Pre-planned Q & A: Chat box not feasible with level of attendance
Upcoming Calls

Update: Future weekly calls will be held on Thursdays 1-2 PM

• Recordings will be available immediately: [NYSDOH COVID-19 Healthcare Provider website](https://www.ny.gov/coronavirus)

• In addition to YouTube, an on-demand version of our weekly sessions for healthcare providers in NYS is now available as a podcast – search NYSDOH

• If you are not receiving email invitations to the call series, please work with your Health Commerce System (HCS) site coordinator to receive notifications from the Integrated Health Alerting and Notification System (IHANS)
Disclaimer

• The situation is rapidly evolving, as is our understanding of this new virus.

• All of the information presented is based on our best knowledge as of today.
## Situation Summary: COVID-19 Global, 5/6/2020

NYS COVID-19 Healthcare Utilization

• Currently hospitalized: 8,665 \textit{(decreased by 514)}
  • Newly hospitalized (3-day average): 607

• Current ICU: 2,976 \textit{(decreased by 122)}
  • Current Intubation: 2,425 \textit{(decreased by 108)}

• Cumulative discharges: 55,547

• Deaths: 231 \textit{(compared to day prior 232)}

• Continue to see decreases in hospitalization, ICU, and intubation numbers
SARS-CoV-2 Testing for COVID-19
Alternative Specimen Collection Sites - COVID-19 Testing

• 5 new drive-through locations opened this week
  – **Niagara County:** Niagara County Community College, 3111 Saunders Settlement Rd, Sanborn, NY 14132
  – **Erie County:** Buffalo Sabres Lot, 125 Perry Street, Buffalo, NY 14204
  – **Broome County:** Binghamton University - Event Center (Lot F/F3)
  – **Monroe County:** Monroe County Community College, 1000 E Henrietta Road, Rochester, NY 14623, Lot G
  – **Oneida County:** Griffiss International Airport, 592 Hanger Road, Rome NY, 13441

• Diagnostic Testing Access: Individuals who fit prioritization categories and do not currently have access to testing can:
  – Call the New York State COVID-19 Hotline at 1-888-364-3065
  – Visit the NYSDOH website [www.covid19screening.health.ny.gov](http://www.covid19screening.health.ny.gov) to be screened for eligibility, and if eligible, have an appointment set up at one of the State’s Testing Sites
Available Molecular Assays

www.fda.gov/medical-devices/emergency-situations-medical-devices/emergency-use-authorizations#covid19ivd

- There are 48 PCR-based assays for SARS-CoV-2 that have been approved under the FDA’s EUA process
- The majority of these are assays that can be used in a high-complexity laboratory
- Three are waived assays
- There may be supply chain issues for reagents (ideally, it is good for laboratories to have multiple platform options to give more flexibility)
Molecular SARS-CoV-2 Testing

NYS – over one million people have been tested (1,055,921)

Is home based specimen collection an option?
- The FDA has recently approved LabCorp to use an at home collection kit for SARS-CoV-2 testing for use under an Emergency Use Authorization (EUA) only
- Not yet available in NYS, however, availability for NYS residents is under discussion
Available Serology Assays

- 12 assays are FDA approved for use in moderate or high complexity laboratories
  - 7 are IgG and IgM tests or total antibody tests, 5 are IgG only serologic assays
  - There are no waived tests to detect antibodies to SARS-CoV-2 (no point of care tests)
- NYSDOH recommends only using FDA EUA tests

- There are over 150 serology assays listed on the FDA website
- These are NOT FDA reviewed, nor approved.
- Be aware of these disclaimers if you use these tests
  - This test has not been reviewed by the FDA.
  - Negative results do not rule out SARS-CoV-2 infection, particularly in those who have been in contact with the virus. Follow-up testing with a molecular diagnostic should be considered to rule out infection in these individuals.
  - Results from antibody testing should not be used as the sole basis to diagnose or exclude SARS-CoV-2 infection or to inform infection status.
  - Positive results may be due to past or present infection with non-SARS-CoV-2 coronavirus strains, such as coronavirus HKU1, NL63, OC43, or 229E.
NYSDOH Health Advisory on COVID-19 Serology Assays

Q&A’s provided to answer patient and community questions on serology

NYSDOH Health Advisory on COVID-19 Serologic Assays
If the serology test is positive and shows that I have antibodies to SARS-CoV-2, does that mean I am immune to the virus?

- Based on our knowledge of how the body reacts to an infection, we presume that the presence of IgG antibodies could mean that you have some level of immunity to a virus.
- However, at this time, it is unclear whether the presence of SARS-CoV-2 IgG antibodies will result in immunity to prevent future COVID-19 infections.
- We will better understand immunity to SARS-CoV-2 as we study what happens to people who test positive for SARS-CoV-2 IgG antibodies and are again exposed to SARS-CoV-2, to determine if any of them are confirmed to have new infections.
Statewide Community Serosurveys

- Over 15,000 people were tested across the state at grocery stores and community centers over the past two weeks
- Statewide:
  - 12.3% of the population have COVID-19 antibodies
  - 11.5% of women tested positive, 13.1% of men

  • Not working or traveling;
  • Predominately located downstate;
  • Predominately minorities and older individuals;
  • Predominately non-essential employees; and
  • Predominately at home
Containment
Get Involved: How You Can Help

GET INVOLVED

New York State is doing all it can to keep New Yorkers safe and stop the spread of COVID-19. But we’re stronger if we all work together. Governor Cuomo is calling on health care professionals, schools of public health or medicine and PPE products providers and manufacturers to come forward to support the state’s response. It’s going to be hard, it’s going to be disruptive, but we will get through this together.

BE PART OF AN EFFORT TO RE-OPEN OUR COMMUNITIES

NYS Contact Tracing Initiative

Contact Tracers
Reach out to the contacts of anyone diagnosed with COVID-19 to assess symptoms, ensure compliance with quarantine and determine social support needs

Team Supervisors
Lead a team of 20 Contact Tracers, and one Community Support Specialist who are working remotely using digital tools

Community Support Specialists
Work with the team to address the support needs of those who are contacts, especially those who are under isolation or Quarantine

Community Mitigation and Re-opening Strategies
NYS Community Mitigation and Reopening Strategy

- **NY on PAUSE and social distancing through May 15th**
  - Non-essential businesses will remain closed

- **After May 15th:**
  - More essential businesses with lower risk of infection (to workers and public) will reopen first
  - New safety strategies in business
    - Social distancing, reduce density, masks, cleaning, screening, reporting

- **All K-12 schools and college facilities statewide will remain closed for the remainder of the year**
  - Continue to provide distance learning, meal delivery, and childcare services for the remainder of the year
NYS Reopening Strategy

• Regions must have (based on CDC guidelines):
  – **New infections:**
    • At least 14 days of decline in total net hospitalizations and deaths on a 3-day rolling average
    • Region cannot exceed 15 net new total hospitalizations or 5 new deaths on a 3-day rolling average
    • Region must have fewer than two new COVID patients admitted per 100,000 residents per day
  – **Healthcare capacity:**
    • At least 30 percent total hospital and ICU beds available
    • Hospitals have at least 90 days of personal protective equipment stockpiled
NYS Reopening Strategy

• Regions must have (based on CDC guidelines):
  – Molecular testing capacity:
    • The capacity to conduct 30 molecular tests for every 1,000 residents per month
  – Contact tracing capacity:
    • A baseline of 30 contact tracers for every 100,000 residents
New Yorkers without health insurance can apply through NY State of Health through **June 15th, 2020**

- Must apply within 60 days of losing coverage
Pediatric Multisystem Inflammatory Syndrome Associated with COVID-19
Pediatric Multisystem Inflammatory Syndrome

• Last week, in the United Kingdom and Europe, a possible link was reported between COVID-19 and a serious inflammatory disease recently termed “Pediatric Multi-System Inflammatory Syndrome Temporally Associated with COVID-19.”

Royal College of Paediatrics and Child Health Guidance: Paediatric Multisystem Inflammatory Syndrome Temporally Associated with COVID-19
Pediatric Multisystem Inflammatory Syndrome

- NYC DOHMH Health Alert
  - During April 29th to May 3rd:
    - 15 compatible cases identified in NYC pediatric intensive care units
    - Fever, features of Kawasaki disease and/or toxic shock syndrome, abdominal symptoms were prominent
  - Intensive care required for cardiovascular and respiratory support

NYSD DOHMH Pediatric Multisystem Inflammatory Syndrome Potentially Associated with COVID-19
Pediatric Multisystem Inflammatory Syndrome

- NYSDOH Health Advisory
- From March 1 - May 5, 2020:
  - 64 compatible cases identified in NYS, including NYC
  - Fever and abdominal symptoms may be prominent
  - Rash also may be present
  - Myocarditis and other cardiovascular changes may be seen
  - Majority required intensive care
  - Majority tested positive with PCR or antibody testing
Pediatric Multisystem Inflammatory Syndrome

- More to be learned
- More data to come
- Ongoing evaluation of trends
- Cases in young adults?
- SUNY Buffalo colleague
  - What we know
  - What we don’t know
  - More to learn

Guidance on Therapeutics
Update on COVID-19 Therapeutics

• NIAID Remdesivir Trial - ACTT Trial (Adaptive COVID-19 Treatment Trial (ACTT))
  – Not yet published in the peer reviewed literature
  – DSMB identified the effect and NIAID felt it was ethical to report it out
  – ~1,060 patients, randomized controlled trial versus placebo
  – Recovered in 11 days versus 15 days (p=0.001)
  – Mortality trended toward better, but not statistically significant (8% versus 11%)
  – Promising because it opens the door to more research on effective therapeutics and lets us know we can treat this virus
  – NYS sites involved in this study

• Many other sites in NYS also engaged in clinical trials run by Gilead and in compassionate use / expanded access trials

• Lancet study out of China with 237 patients total (158 drug and 79 placebo) – no statistically significant difference in clinical benefits

• FDA EUA provided for severe illness in children and adults (intravenous medication)

**COVID-19 Weekly Healthcare Provider Update Compilation:**

**As of May 6, 2020, 9:00 AM**

The information in this compilation is current only as of the above date and time.

**Purpose:** The purpose of this weekly publication is to provide healthcare providers in New York State with a consolidated update of guidance released by the New York State Department of Health (NYSDOH) related to the COVID-19 pandemic response. This will show only current guidance for any given topic and will be updated to reflect new guidance.

As a reminder, all advisories and informational messages (including webinar invitations) are distributed through the Integrated Health Alerting Network System (IHANS), an application housed on the Health Commerce System (HCS). If you are not receiving IHANS notifications, please work with your site’s HCS coordinator. Additional COVID-19 resources may be found on the NYSDOH webpage under Information for Healthcare Providers.

Recordings of COVID-19 Weekly Healthcare Provider Updates are also available on the NYSDOH webpage.

For questions, contact covidproviderinfo@health.ny.gov
Dear Colleague,

With deep appreciation and respect for your dedicated effort during the COVID-19 pandemic, I am inviting you to participate in a confidential online survey to assess the health impact of the COVID-19 pandemic on the New York State health care workforce. The study is being conducted by a consortium of NY universities and institutions, including Columbia University, NYU, CUNY Public Health, Hunter College, and the New York State Psychiatric Institute. Your identifiable data will be held by the university researchers and will not be shared with anyone. Participant responses are anonymous; research data are archived without any identifiable information, and contact information is held separately.

Immediate findings from their research will be shared with the policy, practice, and research communities within 7 days of data collection, so that it may be useful to the health workforce and to our ongoing COVID-19 response planning.

The survey will provide important insights to understand how to best address the needs of healthcare personnel who are on the front lines and shouldering critical responsibilities in the face of great personal risk. Additionally, the research team wants to hear from all healthcare personnel, even if you are not presently deployed on the front lines of the COVID-19 response.

Participation is completely voluntary and confidential. If you choose to participate, the questionnaire will take approximately 10 minutes.

To learn more about the study and to participate, please click on the link below:

https://redcap.nysci.org/surveys/?s=NXNTCHK3TW

Sincerely,

Howard Zucker, M.D., J.D.
Commissioner of Health

For questions, contact covidproviderinfo@health.ny.gov
Healthcare Provider/Physician Wellness

- The state is partnering with the Kate Spade New York Foundation and Crisis Text Line to provide a 24/7 emotional support service for frontline healthcare workers.
- Workers can text NYFRONTLINE to 741-741 to access these emotional support services.
- New York State-regulated health insurers will be required to waive cost-sharing, including deductibles, copayments and coinsurance, for in-network mental health services for frontline essential workers during COVID-19.
CDC COVID Website

Coronavirus Disease 2019 (COVID-19) — Information for Providers

Daily Syndromic and Case Data Update
The following documents provide information about people confirmed to have COVID-19 in NYC. They will be updated each weekday morning.

The total number of positive cases in the city are updated continuously. This update reflects data as of the previous day at 6 p.m. Due to public health guidance that people with mild illness stay home and not get tested, these data may not reflect the true number of positive COVID-19 cases in NYC and may overrepresent the volume of hospitalized cases.

As of March 18, 6 p.m.:
- COVID-19 Daily Case Data Summary (PDF)
- NYC Flu-like Illness Data 2016-Current (PDF)
Mental Health Resources

Guidance Documents

As defined in section 202-e of the State Administrative Procedure Act, a guidance document is any guideline, memorandum or similar document, prepared by an agency, that provides general information or guidance to assist regulated parties in complying with any statute, rule or other legal requirement. The term does not include documents that concern only the internal management of the agency, such as a policy that applies only to an OMH operated facility or program.

Current OMH Guidance Documents:

Guidance on COVID-19

- OMH Psychiatric Center Visitor Restriction Guidance (3/14/2020)
- COVID-19 Guidance for Children’s Waiver Service Providers (3/14/2020)
- DOH Medicaid Updates – Special Editions
- COVID-19 Guidance for Health Homes (3/14/2020)
- Provider Memo – Maintaining Continuity of Operations Plans and Reporting Disruptions in Services (3/19/2020)
- Guidance for NY’s Behavioral Health Programs (3/11/2020)
- Interim Guidance for Cleaning and Disinfection of Public and Private Facilities for COVID-19
- Interim Guidance for Large Gatherings and Public Spaces During the COVID-19 Outbreak
- OMH Guidance for Managing Stress and Anxiety During the COVID-19 Outbreak

COVID-19 Telemental Health Guidance

- Supplemental Guidance – Use of Telehealth for People Served by OMH Licensed or Designated Programs Affected by the Disaster Emergency (REVISED – 3/17/2020)
- Self-Attestation of Compliances to Offer Telemental Health Services (REVISED - 3/13/2020)
- DOH Medicaid Update Special Edition: COVID-19 Telephonic Communication Services
- OASAS Telepractice Waiver Update
- Interim Guidance Regarding the Delivery of Services Through the Use of Telehealth Modalities in Facilities Certified or Operated by OPWDD

Feeling Stressed About Coronavirus (COVID-19)?
Managing Anxiety in an Anxiety-Provoking Situation

The outbreak of COVID-19 around the world has led to the spread of fear and panic for individuals and communities. In addition to following physical precautions guidelines, individuals should be taking care of their psychological well-being.

This guide includes tips for the following populations:

- For Everyone
- For Individuals Receiving Mental Health Services
- For Parents, Including Parents of Children with Pre-Existing Anxiety Disorders
- For Caregivers of Older Adults
- For Mental Health Providers

For Everyone:

- Reduce anxiety by reducing risk. Ways to reduce risk include practicing good hygiene (e.g. ...)
Mental Health Resources

• NYS Mental Health Helpline
  1-844-863-9314

• The helpline is staffed by specially trained volunteers, including mental health professionals, who have received training in crisis counseling related to mental health consequences of infectious disease outbreaks, typical stress reactions, anxiety management, coping skills, and telephonic counseling

ATTENTION ALL PATIENTS

STOP

If you have

fever

cough

trouble breathing

Call this number ____________________.
Tell them your symptoms.
Ask where you should go and what you should do.
Put on a mask before going inside.

ATTENTION ALL VISITORS

STOP

NO VISITORS ARE ALLOWED AT THIS TIME

If you feel there is an urgent need for visitation, please contact ____________________.

DO NOT VISIT
Questions or Concerns

• Call the local health department [www.health.ny.gov/contact/contact_information/](http://www.health.ny.gov/contact/contact_information/)

• In New York City: Notify the NYC DOHMH provider access line (PAL)
  – 1-866-NYC-DOH1 or 1-866-692-3641 (works 24 hours/day x 7 days/week)

• Providers who are unable to reach the LHD can contact the NYSDOH Bureau of Communicable Disease Control at **518-473-4439** during business hours or the NYSDOH Public Health Duty Officer at **1-866-881-2809** evenings, weekends, and holidays
SHARE YOUR VIDEO ENCOURAGING ALL NYERS TO WEAR A MASK (< 30 seconds)

Calling All New Yorkers

Please submit a video that shows New Yorkers why it is so important to wear a mask in public. Videos should be less than 30 seconds long and show a mask properly worn over the mouth and nose. The top five videos will be posted and New Yorkers can vote for their favorite. The winning video will be used as a Public Service Announcement (PSA).

Videos must be submitted by May 15th.
