Process to be a Monoclonal Antibody Dispensing or Administering Site in New York State

1. Complete the COVID-19 Therapeutics Provider Enrollment Form. Include:
   - Copy of Board of Pharmacy License or Physician’s License
   - (If a Physician and address on physician’s license does not match shipping address) A Letter of Affiliation

2. NYSDOH Reviews the Enrollment Form and makes a determination.

3. NYSDOH submits site information to Amerisource Bergen to establish account.

4. NYSDOH sends additional form to identify all sites mAbs will be dispensed to or administered. You will also need to sign up for a HHS Protect, TeleTracking or NHSN account.

5. After confirming the number & location of all sites, NYSDOH will send email confirmation that you can begin requesting mAbs.

Denials are most often due to insufficient documentation, not being a NYS-licensed provider, or having dispensing or administering sites outside of NYS.

To reapply, submit a new application with corrected documentation.

This process could take up to 2-3 weeks. Review all necessary documentation requirements before beginning your application.
